Dear Mr Dennis,

Quote REF:TN38 9TN 292

Location of Japanese Knotweed: Former Grove School/Darwell Campus of the St Leonards Academy, Darwell Close, St Leonards, TN38 9TN

Thank you for choosing Longfield Knotweed Solutions Ltd to carry out the works as detailed in the quote dated 18th June 2016. We completed the first treatment on Friday 1st July 2016. The weather was overcast and rained a little in the morning so herbicide spraying was carried out in the afternoon. A walk over the site did not identify any further Japanese Knotweed.

For clarity below is a copy of the locations of the infestation and then photos of the work carried out.

Infestation label	Approx. area seen
JK1 & JK2	50m x 30 m (up to the basket ball court and borders with the path. (Also contains giant Japanese Knotweed, treated as Japanese Knotweed)
JK3	10m x 5m
JK4	5m x 2m (another stem seen other side of pathway past metal fence)
JK5	10m x 20m (min) some has been treated previously
JK6	10 m x 10m (max) (could not get access due to excess brambles)

JK1
&
JK2

To fence off the area we trimmed the overgrowth on the pathway to ensure the stakes were hammered into the soil sufficiently. The signs were put up to inform passers by and we spoke to two children retrieving a ball from this area – not to enter and not to break off the stems. They appeared cooperative and interested in what was being carried out.

JK3

For information there is a rabbit hole under the infestation. We allowed sufficient room for them to exit under the mesh or to the sides.

JK4

Fenced off the area and put a sign up on the most obvious location to any passer by.

JK5
&
JK6

There was a large tree which is dividing JK5 and JK6. We gained access to JK5 via the bottom of the basket ball entrance (photo above left) and fenced off the area from here. We then went to the top of the basket ball entrance and fenced off the top area JK6.

I will send a separate email with the invoice.

I have pencilled in the next visit for Friday 2nd September 2016, weather dependant and will contact you closer to the time to confirm.

Any further questions please don't hesitate to contact me.

Kind regards
